

There's still time!
New start date: August 28

Urban Forest Management Planning

PUB 159

Citrus College credit
3 units toward your Public Works Certificate or Degree
Developed in collaboration with the
California Urban Forests Council

Cities are being encouraged to develop an Urban Forest Management Plan to improve the air quality and environmental issues in their community. Those cities that have an Urban Forest Management Plan increase their opportunities for receiving a CalFire grant. Consultants who write Urban Forest Management Plans charge between \$10,000 and \$250,000. You can learn to write your own plan in the new class, Urban Forest Management Planning.

This online class starts August 28
and will end December 17, 2010.

Three sessions will take place at the MSA conference
at the Pechanga Resort October 5, 6, & 7.
